Read 1 Kings 5:1-14 or John 5:18-25.

Know ye that Ramoth in Gilead is ours, and we shall, and take it not out of the hand of the king of Syria? (1 Kings 22:3.)

Recently I visited my native community in central Kansas. Here on the prairie, I met my parents and other pioneers, facing the hardships of the westward frontier for decades. Frequently they were on the verge of starvation.

They lived on the old farm on the hillside, only a stone's throw from the first little stone cabin, a producing oil well. Near by hundreds of oil and gas wells were sprouting up.

I saw on the old farm on the hillside, only a stone's throw from the first little stone cabin, a producing oil well. Near by hundreds of oil and gas wells were sprouting up.

They owned the land beneath the surface. They did not possess them nor even find them.

We, too, may live in poverty while spiritual wealth is at our very doors. Christ came not only that we might have life but that we might have it more abundantly. The limits of His blessings are fixed by ourselves. It is not a question of His willingness to give, but of our capacity and willingness to receive.

PRAYER

Teach us, dear Lord, that the riches of thy grace are available to us. Save us from living on the surface of life. Let us not possess them nor even find them.

We, too, may live in poverty while spiritual wealth is at our very doors. Christ came not only that we might have life but that we might have it more abundantly. The limits of His blessings are fixed by ourselves. It is not a question of His willingness to give, but of our capacity and willingness to receive.

## Glades Episcopal Churches Plan To Attend Nat'l Meet

For the first time in history the Episcopal Church will hold its annual meeting in Florida, announces Father John Clarence Petrie, vicar of St. John the Apostle, Belle Glade, and St. Martin's, Clewiston.

Plans are now in the making for the meeting, to be held at the Hotel Florida, on the night of Sunday, October 5, for the opening service. In the same hall the United Thank Offering of the Episcopal Church will be received on the morning of the following Thursday.

Car pools or chartered busses will take Episcopalians from the Lake Okeechobee area which includes Belle Glade, Lake Okeechobee, Pahokee, Glades, and Clewiston. The whole Episcopal Church met in the South only once before, at New Orleans. This will be the first time that the entire church has gathered in the state and the only chance of people from South Florida to see the Church in action.

The Woman's Missionary Union will have the annual mission study on Home Missions Tuesday, Mar. 18th, at 7:30 p.m. in the Parlorium.

Mrs. Charles Stewart of the Point will teach the book, "The Long Bridge" and the Reverend Charles Stewart, pastor of the Canal Point Baptist Church, will share it in conjunction with the book and Home Missions.

Members of all the circles are urged to attend this mission study which is held each year in the month of March.

More About Florida's Facilities  
For Exceptional And Retarded Youth

(Editor's Note) This is part two of an article by the assistant juvenile counselor dealing with county and state institutions of corrections for exceptional and retarded children.

By Gene Duncan  
Facilities for mentally retarded children are overcrowded. The Sunland Colony at Gainesville is most adequate in its facilities, but it cannot handle the number of such cases as we have in the state. A new colony is under construction, but presently a waiting period of eighteen months to two years is necessary before we can get a child admitted.

In the interim we may send a mentally retarded child to one of several private agencies, but the expense involved is prohibitive except in certain serious cases.

A child fourteen or older may be sent to the state penitentiary at Raiford if the seriousness of his crime warrants it and if his case is referred to criminal court.

We may be sent to the state penitentiary at Raiford if the seriousness of his crime warrants it and if his case is referred to criminal court.

Perhaps the saddest case I have ever seen was at a private agency for care of mentally retarded children. There was found a hydrocephalic child, about seven months commonly as a "water head baby" about fourteen months old an in perfect health except for its enormous head while growing much in circumference, even two feet.

The man in charge of this agency told me that there was an operation which would stop the growth of the child's head and that could be done.

Unfortunately, this operation would have been of little value, as there were no funds available, so the child would inevitably die. I saw this child in July and undoubtedly it is dead now because no money was available for the operation to save it's useless life.

## Food Sense — Not Nonsense

### Why Bear B Vitamin-Short Fare?

Baby Bear had good reason to howl when Goldilocks ate his porridge. He was crying for his lost supper. But he would have cried harder had he known that cereal foods are an important source of vitamins. For example, he would have needed to change his diet to change his food energy into the frank-and-fancy fare he still craves on thiamine. Because many of us don't eat enough of the foods that are high in thiamine, Baby Bear's fate: To drag at work and play.

To get enough thiamine each day, it is not necessary to eat "high off the hog." Best sources are among the least expensive foods—enriched and whole grain breads and cereals, peas and beans, peanuts, and pork.

In spite of spending more money on food than ever, many of us are eating thiamine-short fare. Pointing up the strange relationship between what we eat and the money in our

Atchafagee are the main discharges for regulation of the lake level. Folks at Stuart resent the heavy silting caused by a wind storm.

The US Engineers admit they haven't used the facilities for control of the lake to the best advantage, for several reasons.

The US Engineers write that "there's no taking" and Central & Southern Florida cannot be told that they are a municipal entity, or as successors to Everglades Drainage and/or Okeechobee Flood Control.

"To sue the US Engineers there must be a permissive bill enacted by a Federal Congress, many believe."

Records of the US Engineers show just how many times the lake has been above the mark at a particular time and caused on successfully both before the '22 dike and before the present dike, as well as since they have been installed.

Okeechobee landowners have reluctantly submitted to the theory that the Overall Flood Control Plan as conceived is for the good of all south Florida.

The victims of some of the worst flooding in the entire area in this lake area, Okeechobee being used as a storage basin — they maintain that they should be paid for their lands and for all other private citizens paid for land used for the good of all.

Despite the wailing of the informed Board of Central & Southern Florida, their efforts to create an unfavorable public sentiment, "lands have ONLY asked for equity and justice, as determined by an impartial committee of appraisers."

No argument of "equity and justice" has ever been advanced by the Board as an excuse for non-action. No action of the Board has been known to the leaders or the public to indicate that anything other than stubbornness to acceptance of facts and ideas of grandeur have motivated the members of the Board are guilty of omission of performance of duties — they have allowed two members to do the resisting, fiddling around and fighting even the Governor's Committee.

Such self-inflation usually leads to a "bust" that leaves a lot of hot air around and sometimes a stench of foul air.

Tommy Joe Hodges Partied on Birthday

Tommy Joe Hodges was honored at a party Saturday, given by his grandmother, Mrs. Joe Hodges in celebration of his 8th birthday.

(Continued from Page One) well that with a rock dike stronger and higher waters would naturally be piled up over the Islands.

The RDB members who led the efforts to secure the present Central & Southern Florida Flood Control program following the lead of Senator Spessard Holland, told the public to "hold steady" WITH

**The Book**

The Bible is such a wonderful Book that we never seem to probe its depth of thought. It is a guide to life, a library of parts we can study in a most orderly manner. Many people find the Lord as Saviour before they have learned much about the Scriptures, but when they do find Him, they will begin to study because they will want to know all they can about a wonderful Redeemer. Also they will want to search the Scriptures because Jesus said, "His disciples to do so, and because He frequently referred to Moses and the prophets.

Can you answer these questions?

1. How many books are in the Bible?
2. Name the books of Moses.
3. Which books of the Old Testament are considered historical?
4. Which are considered poetry?
5. Name the major prophets.
6. Name the minor prophets.
7. How many chapters are in the Bible?
8. How many verses?
9. How many words?
10. Which is the shortest?
11. Which is the longest book of the New Testament?
12. Which is the shortest?

**Wreckard Research**

We think some of the current pop records might be given additional meanings when applied to BGHS. Like, for instance, "Age Dream" — Vacation time.

"The Joker" — Coach Maynor.

"To Seem to Know" — The theme of the prom.

"The Little Blue Man" — Mr. McCaskill.

"Twenty-Six Miles" — To the locker room.

### Unhappy Landing

This is one that Dick LeFils told on Captain Felix A. Forbes, the man who initiated and ran the first boat line and passenger boat line in Belle Glade, according to Mr. May. Of course some and distinguished appearance, Captain Forbes was a most affable and agreeable person, but those who knew him would strongly advise against incurring his displeasure.

One of his trips to the lake, Captain Felix had among his passengers a woman bound for Belle Glade. Now for some reason unexplained, the gentleman had rubbed the doughty captain the wrong way. The good skipper was irked. All day, on the monotonous run up the canal, he brooded. That night was spent in the hotel at Rita and next morning the "Mayflower" took the lake to the lake, ten feet of what was the third day of an unusually vicious northeast gale.

Upon approaching Hooker's long dock at Bare Beach, Captain Forbes informed the salesmen that as it was entirely too rough to attempt to tie up at the dock, he would run past it slowly and swing the boat in close enough for the passenger to jump in. The dock of the hotel was not visible in the water but two tall pilings clearly marked its location. Accordingly, Mr. Salesman rolled up his pants, tied his shoes together and hung them about his neck, and with grip in hand, as per arrangement, he confidently stepped off between the two pilings. When last in the water, his shoes still around his neck, and splashing water like a porpoise, was shrimping up one of the pilings. Cap had somehow neglected to tell him that the storm had washed the dock away!

**BILLIE BURKE**, one of the great American beauties of all time, will return to Belle Glade in a new comedy, "Lady of the House," at Royal Phoenix Mar. 11 for one week. Wayne, especially for Miss Burke, was originally produced by Paul Crabbie, the play is slated for Broadway later this year.

### Son of Late Policeman Finishes First Month Of Police Duty Here

Dean Congleton just recently finished his first month of work as police clerk for the Belle Glade Police Department. He joined the force Feb. 4.

Late last week electrical contractors made their visit and replaced the police's fuse box, which had been moved to complete with new wires and parts.

Out of the old box fell a business card. One side of the card bore the name of Haled Manufacturing Co., Inc., Chicago. This was of no consequence. On the other side was a written statement of electrical inspection. It was dated Aug. 4, 1934.

Comparing the card up as appropriate with a typewritten statement signed by H. E. Riedel, electrical inspector for the "town" of Belle Glade, that was 24 years old, Mrs. Bannister related, and she's lived here 18 so she presumed the inspection was made at the time the house was built.

Bronwed with age, the small card was nevertheless still a good find, she noted. — Mrs. Bannister

Presently a printed tag slightly larger than a business card is affixed to the meter by the "city's" name.

Griggs said everyone will find a small antique card in fuse boxes which have not been checked in 24 years, but a check of sorts is in a lesser degree. Some sort of a lessening of electrical repair is being provided.

Three additional rooms are being divided in the hall and will be used temporarily as dormitory for maintenance staff members. Eight members are currently on the staff.

The Authority is building an office for the Christian Ministry in the hall. The three rooms will be used for Sunday School classes, sewing groups and club activities. Possibly, library facilities will be available to the voluntary contribution of books and money to buy books.

The Authority will add three other rooms in the future for a library and piano tool shop, which will eventually be rebuilt through contributions.

Presently, the Miami Shores Community Church has taken on a project, for their 25th anniversary, to build a new auditorium, to supply educational materials and equipment for the nursery.

The local Methodist and Presbyterian Churches have already committed funds toward refurbishing nursery supplies and equipment.

This community might well be proud of it's united effort to help erase the setback which resulted from the nursery fire.

### High Times Enjoyed By Carnegie Course Entrants

Friday night the Dale Carnegie Class, meeting at Belle Glade High School, put "Mary Had A Little Lamb" through the paces as the subject of their classwork.

A recent highlight of the weekly classes was a "crashing through" session at which time classmembers told what made them work. Working primarily on personality, motivation and confidence improvement, weekly awards are made.

Friday night awards were presented, best speech, Frank Thompson, most improvement; Albert Newton, achievement.

Former winners: (best speech) Iverne Congleton, Milton Carter, (most improvement) Myrtle Ward, Nancy Carpenter, Grover Troth, Aubrey Farmer; (achievement) Clarence Robinson, Helen Lee, Ted Remond, Miller Carpenter, Alice Stanley.

Stanley Whitchurch, Ft. Lauderdale, instructor for the Glade class.

Remaining with the classes are Mrs. Vera Jones and Bobby Newman, former course graduates.

**Cigarette Tax Reported**

Money available for distribution from cigarette taxes collected in January and reported this month amounts to \$6,033.

For Belle Glade, H. G. Cochran, Jr., director of the state revenue department, which collected the tax reported this week.

Clewiston's share amounts to \$2,591.88; Boca Raton \$1,389.33; Pakohoo \$3,166.94.
